Integrated Solutions for all Climate Conditions

Ormat integrated power solutions include fully equipped, climate controlled equipment shelters and auxiliary equipment. All components utilize industry-leading technology and have been field-proven. Our integrated power solutions enable our customers to considerably reduce costs and project time schedules, while benefiting from our experience as integrators in the field.

The integrated system shelters are thermally insulated, complete with a fire suppression system, DC and AC distribution panels and converters, DC lamps, light switches, alarms, equipment supporting means for installation and integration of station equipment and batteries, HVAC, and non-electric heating systems.

The Ormat integrated power solutions have been successfully supporting world-wide strategic projects such as the Trans-Alaska pipeline, the BAM Trans Siberian radio link and the Sakhalin II oil and gas pipeline system.
